About us:

Construction Tech

is a Tier A+ construction contractor, classified by the Saudi Contractors Classification Agency (SCCA), that has been shaping Saudi Arabia's built environment since 2007. Specializing in fit-out, civil, electrical, and HVAC works, we deliver integrated solutions built on quality, safety, and professionalism. With a proven record of success, CONTECH continues to contribute to the Kingdom's Vision 2030 transformation.

Total Project Value

Mission and Values

Our Mission:

To deliver exceptional construction and fit-out solutions that combine technical expertise, uncompromising quality, and timely execution. We transform visions into reality by aligning with Saudi Arabia's development goals, fostering trusted partnerships, and creating lasting value.

Headquarter

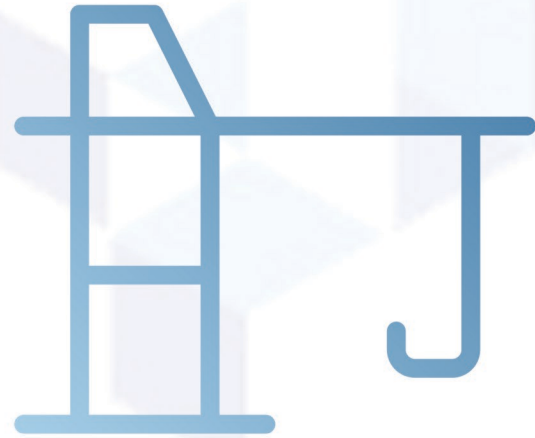

Our Values

- Integrity & Accountability
- Quality Excellence
- Client-Centric Approach & Efficiency
- Collaboration & Respect
- Commitment to Vision 2030

Our Services:

Civil

MEP

Our Major Clients:

The background features a complex geometric pattern. On the left, there is a field of light blue, semi-transparent cubes arranged in a staggered, isometric grid. To the right, a series of thin, orange lines intersect to form a 3D wireframe structure of rectangular prisms, creating a sense of depth and architectural complexity. The overall aesthetic is modern and technical.
